

We build trust.

## HELASOFT, LISAM SYSTEMS AND TECHNIDATA PROUDLY PRESENT THE HELACLOUD

*Brussels – June 17th, 2019*

**German HSEQ Consulting Company HELASOFT confirms forthcoming strategic partnership with software publisher Lisam Systems. The data service provider Technidata is also confirmed to join this collaboration as the preferred hosting solution.**

The three companies will join forces to bring a unique, comprehensive and reliable Product Stewardship Platform to the market – the **HELACLOUD**. Hosted on high security Technidata servers located in Germany, the all-in-one solution combines the long-lasting HSEQ & IT consulting expertise of HELASOFT with the top-level SDS authoring & distribution software solutions provided by Lisam Systems.

The partnership brings together more than 500 HSE & IT professionals around the globe who contribute with their incomparable knowledge and expertise to build this new, customer-oriented platform. That makes the HELACLOUD the optimal tool for an efficient, future-oriented and sustainable maintenance of EH&S compliance data and related documents authoring.

HELASOFT Managing Director, Ralf Droge, emphasizes the potential of the collaboration with Lisam Systems and Technidata. Quoting Steve Jobs, he says: *“Great things in business are never done by one person, they are always done by a team of people.”*

***“With the HELACLOUD we bring a product to an unsettled market to build trust and ensure continuity and stability, together with our strong partners.”***

To learn more about the HELACLOUD, you can meet Ralf Droge at ChemCon Asia (June 17th-21st) or find his contact details below.

### **About Lisam Systems**

Founded in 1999, Lisam System’s easy-to-use, flexible solutions incorporate the latest regulatory content to deliver innovative and affordable SDS and chemical management solutions designed for all major global commercial markets. Key vertical industries include: chemical, specialty chemical, energy, plastics, paints, coatings, coverings, cosmetics, aromas and flavorings, and detergents. Today, more than 1,300 clients worldwide rely on Lisam’s SDS and chemical management solutions, built on the Microsoft .NET platform and available in 50 languages.
